# Free Image Conversion Toolkit

## Why Convert Image Formats?

- Reduce file size for websites or emails
- Switch to transparent backgrounds (JPG -> PNG)
- Use modern formats like WebP for speed

## Quick Format Tips

- JPG: Best for photos, but no transparency
- PNG: Supports transparency, good for logos
- WebP: Small file size, good for web
- BMP/TIFF: Large, old formats - consider converting

## Convert Online in Seconds

Use our fast and free online image converter:

<https://imageconvertor.site>

- No sign-up required
- Supports multiple formats
- Fast & easy to use
